

Survey Field Technician

Summary

Nederveld Inc. is a multi-disciplined consulting engineering, and land surveying firm with offices throughout the Midwest. Our Land Surveying team has career opportunities available for Survey Field Technician positions which could be located out of either Ann Arbor, Grand Rapids, or Holland Michigan areas.

Join a team of experienced Land Surveying experts and learn the skills needed to be a Survey Field Technician.

A Survey Field Technician will assist and work with a crew chief in the field to complete land surveying projects. Projects may include working with robotic instruments, high definition scanners, unmanned aerial vehicles (drones), GPS, mapping equipment, and precision measurement systems.

While learning from and working with Land Surveying professionals, a Survey Field Technician will work primarily outdoors in various weather conditions and terrain.

Qualifications

- Strong work ethic
- Land Surveying or construction experience helpful
- High School Diploma or GED equivalent
- Strong understanding of mathematics and geometry
- Valid Driver's License in good standing, and demonstrated safe driving habits

Why join the Nederveld team?

Do you like construction and being outside? Do you enjoy mathematics and problem solving? Our team is eager to provide the on-the-job training needed to learn the profession of Land Surveying. Team members may experience valued career advancement into the position of Crew Chief and Senior Crew Chief. Land Surveying Crew Chiefs are responsible for project management and leading survey crews.

Full-Time positions with Nederveld are offered with a comprehensive benefits package. A Survey Field Technician would be offered an hourly compensation rate between \$12-\$15/hour, with opportunity for advancement.

At Nederveld we work hard and play well. We are a talented group of people who care about others and the quality of the work we do. Professional time is respected, so our personal time can be enjoyed.
